Summary

As a highly motivated agricultural student and SEO analyst, I bring a strong foundation in sustainable agriculture, data analysis and digital marketing. With experience in research, content writing and search engine optimization, I have contributed to enhancing online visibility and promoting agricultural initiatives. My proficiency in WordPress Design, Google Analytics, and R programming allows me to implement data-driven solutions. Passionate about the sustainability and agricultural innovation, I continuously seek opportunities to expand my expertise and drive impactful change in the field.

Experience

Research Intern

Prime Minister Agriculture Modernization Project, Nepal

2023 - 2024

- Research on effects of nursery management on hatchlings of Bighead carps in Dhanusha.
- Assessment of different varietal performance of Nepalese Hybrids in Dhanusha, Nepal.
- Assisted in Beneficiary selection survey of FANSEP-II project through farmer assessment and verification.
- Participated in Field surveys and data collection on fruit production for Ministry of Agriculture using GPS in Madhesh Province.

SEO Analyst WordPress Designer

Codavatar Tech.

2022 - 2023 (1 year 6 months)

- As a SEO Analyst and WordPress Designer, I was responsible for monitoring SEO trends and identified opportunities for optimization and growth.
- Developed and optimized high-impact, SEO-driven content across multiple websites, using data-driven keyword strategies, structured formatting and engaging copy to enhance traffic.
- Worked as Search Engine Optimization Analyst and WordPress Designer in KrispCall.
- Optimized WordPress-based websites and ensured high-speed performance and UX/UI enhancements.
- Implemented schema markup, structured data and rich snippets for improved search visibility.
- Used Google Search Console, Google Analytics, Semrush and Ahrefs for performance tracking and user website performance analysis.
- The end result was highly engaging and user-friendly content, designed to enhance website visibility, improve search rankings, and drive organic traffic, allowing users to easily access and engage with valuable information.

SEO Content Writing Intern

Ombryo Lab Pvt. Ltd.

Jan 2021 - Jan 2022 (1 year 1 month)

- Developed SEO-optimized content, enhancing brand visibility and user engagement.
- Conducted in-depth keyword research for better content structuring.
- Implemented on-page SEO strategies such as meta tag optimization and internal linking.

- Built and managed my own blogging website (<https://www.agrisolutionsx.com/>).
- Worked on agricultural and sustainability-related content, increasing engagement in Environmental blogs and farm-based business.
- Applied technical optimizations and created effective content regarding various topics related to the agriculture.
- Developed SEO strategies for e-commerce websites in agriculture, enhancing digital market penetration and organic traffic.
- Integrated technical, onpage and offpage SEO techniques for the increment of the brand visibility.

Campaign Co-ordinator

International Association of Agricultural Students

Aug 2021 - Aug 2022 (1 year)

- Led global campaigns on sustainable agriculture like soil-test campaign, awareness campaign, mushroom cultivation etc., that in turns improved youth engagement in climate-smart farming.
- Strengthened public speaking, leadership, and project management skills through agricultural workshops and advocacy programs.
- Conducted social media outreach and digital campaign, using SEO techniques to boost event visibility.
- Utilized canva to design impactful digital posters and social media and flyers that promoted agricultural initiatives.

Facilitator

SDG Campaign 2023 | World Food Forum | FAO

Nov 2023 - Feb 2024 (3 months)

- Led outreach campaigns at different bachelor-level colleges, educating students on the importance of the SDGs through presentations and discussions.
- Conducted interactive discussions, encouraging students to explore ways to incorporate SDGs into their studies and daily lives.
- Highlighted the relevance of SDGs to local issues in Mahottari, inspiring students to take actionable steps for sustainable development in their communities.
- Established connections between students, local communities and organizations to foster collaboration and drive collective action towards achieving SDG goals, particularly in the Mahottari district.

Marketing Intern

ChimpVine

2021 - 2022 (7 months)

- Conducted SEO competitor analysis and implemented various digital marketing strategies for the brand awareness.
- Assisted in social media marketing and paid advertising, increasing user engagement and brand visibility across various platforms.
- Created educational content for children in social media platforms, leading to increased engagement and knowledge-sharing within the community.
- Designed eye-catching posters, graphics, and banners using Canva for social media platforms, enhancing campaign visuals boosting user interaction.

Education

Agriculture and Forestry University, Rampur, Chitwan

Bachelor of Science in Agriculture - B.Sc.Ag.

2019 - 2024

Liverpool International College

+2, Biological Sciences

2017 - 2019
